

Warter PRO 2 is a ready-to-use mixture of petrol and premium quality lubricating oil in a 50:1 ratio for **two-stroke engines**. The oil used in the blend ensures exceptional engine cleanliness and guarantees optimum lubrication properties over a wide temperature range. Warter PRO 2 petrol is designed for a whole range of equipment used in the home, workshop and garden: **cutters, hedge trimmers, chain saws, snowblowers, generators and other equipment equipped with two-stroke engines.**

Thanks to its formulation, **Warter PRO 2 alkylate petrol does not delaminate**. We can safely store it in its original packaging for up to five years and in the machine or vehicle tank for up to two years. Using Warter PRO 2 fuel extends the service intervals of engines and increases their service life.

hedge trimmers

chain saws

motor boats

brushcutters

petrol cutters

ultralight trikes

motor scooters

Warter PRO 2

Warter Fuels S.A.

It is a leading producer and distributor of alkylate petrol, supplied to most European countries. The company's overriding value is product quality, which is monitored at every stage of production, storage and delivery.

An important property of WARTER PRO FUEL 2 is the absence of harmful substances for your health and that of your loved ones. The product contains no ethanol, benzene or aromatic hydrocarbons. These substances found in ordinary petrol are extremely harmful and can cause serious health problems, such as cancer.

WARTER PRO FUEL 2 petrol can be stored longer than ordinary petrol. Petrol retains its properties for up to 5 years. This does not impair the engine's performance in any way. Start-up is easy even after a prolonged period of downtime.

The use of pre-mixed WARTER PRO FUEL 2 eliminates the need to mix fuel and oil for a 2-stroke engine. Time is saved and the risk of incorrect mixing is avoided.

This is a considerable convenience for users of the equipment.
